## On The Ridge

All indications point to a very happy and successful season on the Ridge. The regular folks are delighted to be back and the newcomers among us are loud in their praises of the beauties and conveniences they find here and speak in high praise of the people they meet both in town and the summer residents.

Mrs. Herbert Bruce and her daughter, Miss Dorothy have come from Brooklyn, N. Y., to open Bide-A-Wee.

Mrs. Keating and family, have opened "The Maples" on Pine Rd. owned by her sister Miss Martha Bollerman.

Mrs. C. S. Cragger is at home in Kiowa Cottage North Lane.

It is with much regret that her friends learn that Miss Jennie Prindle of Pittsfield will not be at Elstow, Rev. Wallace Chesbro's Cottage this year.

Rev. W. H. Des Jardins and family arrived at Rockmeke, Cliff Road Sunday evening. Mr. Des Jardins is Chaplain in four hospitals in Newark, N. J., as well as rector of a church there.

Mrs. and Mr. Clifford Field are occupying Pine Lodge owned by Herbert E. Stone formerly Assistant Manager of The Hotel Northfield.

Miss Lucy Jackson of Friendship Lodge is here for the season. Mrs. Edna Jenkins is at High View. Her son John and his wife have gone to New Paltz, N. Y., where he will teach this summer.

Mrs. J. A. MacIntire and daughter Ruth, arrived Monday evening.

Rev. and Mrs. Boyd Tucker who are in Hermit Cottage with Mrs. C. R. LaBella spent Tuesday shopping in Greenfield.

The W. A. MacIntire family are in their home on East Lane.

Miss Louise Roe has been in her summer home since April.

Miss Therese Simar has "Welcome" on her doorstep and that spirit is found within. Miss Simar is especially grateful to be able to come to her home here as she has been ill for eight months and obliged to give up her work. She went to her sister in Louisiana to recuperate.

Mr. John Des Jardins who was so prominent on the Golf Course last year spent the winter in Florida and will remain there. He is employed at the Deauville Club at Miami Beach.

A number of cottages are open for the season. Others are being repaired and cleaned and will soon be occupied by the owners or tenants. Indications are for an unusually good season.

Captain and Mrs. John Wisdom have made several short visits to Oakham. They regret their inability to remain owing to the poor health of Mrs. Wisdom's mother at her home on Long Island.

Mr. Robert DuBois whose family sold their home to Dr. Peacock some years ago, was a recent visitor to the Ridge. He is on the faculty of Wilbraham Academy.

## Silver Wedding

Mr. and Mrs. Berton E. Newton and Mr. and Mrs. Clarence J. Griggs were pleasantly surprised Saturday evening at their home when 135 friends and neighbors came in to extend congratulations on their silver wedding anniversary.

Mr. and Mrs. Newton were married June 30th, 1909 in Troy, N. Y., and since 1911 have made their home in East Northfield where Mr. Newton is employed by the Seminary as truck driver. They have two daughters, Mrs. Bernard Whitman and Mrs. Melvin Miller both of East Northfield. Mr. and Mrs. Griggs were married July 29th, 1909 in Troy, N. Y., and since 1911 have lived in East Northfield where he is also employed by the Seminary as truck driver. Since both families live together as one and their wedding anniversaries were so near it was arranged by Mrs. Whitney to celebrate together. The reception was held from 7-10 and the home was prettily decorated with daisies and delphinium.

Rev. W. Stanley Carne sang two solos accompanied by Mrs. B. Whitney and Rev. Mary Conner read two selections. A purse of money was presented the guests of honor by Aaron Newton from neighbors and employees of Northfield Seminary. They also received other gifts of money and silverware. The generous response of the community showed the esteem in which they are held. Ice cream and cookies were served by the hostess assisted by Mrs. J. C. Newton, Mrs. Clyde Matern and Mr. and Mrs. Harry James.

At Forest Hills Gardens, New York, on June 16, Miss Jessie Eleanor Backus, daughter of Mrs. Isaac Wyoff Backus was married to Howard Charles Sanford.

NEW ATHLETIC FIELD

The athletic field is going to be a reality after all if we can judge by the activity now in progress. The work is being done by local and Federal funds and 15 men are now employed grading. These men work 24 hours a week. Waldo Stedding is in charge. Labor is furnished by the ERA board through George Carr, Director.

Out Of Town Wedding

Two weddings out of town but of local interest were solemnized recently. At Flatbush, N. Y., on June 16, Edith Florence Brune, daughter of Mr. and Mrs. William Brune was married to Richard Maxwell Sargent.

At Forest Hills Gardens, New York, on June 16, Miss Jessie Eleanor Backus, daughter of Mrs. Isaac Wyoff Backus was married to Howard Charles Sanford.

## Interesting New Family On The Ridge

A welcome addition to the summer colony is the interesting family of Rev. Boyd Tucker of Sanketan, India who are spending a long season at Hermit Cottage on Heath Lane. Mr. and Mrs. Tucker are the parents of Elizabeth aged eleven, Paton, nine, and the twins Richard and Robert who are seven. All were born in India and from March to November, are in Darjeeling at Queen's Hill School on Mt. Hermon Estate, in the foot hills of the Himalayas, which is three hundred miles from their parent's home. In this school are found children of Europeans and Americans to the number of about two hundred. The school is on the English plan.

Mrs. Tucker grew up in Oklahoma and went to India in 1916 as the head of a girls' boarding school. Mr. Tucker is from Ohio and went out in 1921. They met and married in the field.

They have visited the beautiful estate called the Ashram, headed by Rev. J. Stanley Jones.

The family left their home on March first, and traveled in India before sailing visiting the Taj, Mahal and other places. They sailed from Bombay to Marseilles, France, then visited Switzerland, Paris, Dieppe, London, and left Glasgow Scotland for New York.

After a visit in Ohio with Mr. Tucker's family they came to Northfield. They look forward with keenest interest to the Conference.

Mr. Tucker is Professor in a large institution founded by the post Tagore about thirty years ago. It is co-educational and contains departments of academic work, rural reconstruction, art and music.

We heartily welcome this family to Northfield.

Virginia Fresh Air Camp

Virginia Fresh Air Camp receives its first group of about 40 children from New York City on Thursday July 5. Miss Harper will be in charge again this year. She has been here for a week with assistants preparing the bungalows and other buildings for the young visitors.

The camp is being carried on by the New York City Mission Society, Women's Department, of which Miss Elizabeth Billings is President. But a local committee, of which Mrs. W. R. Moody is Chairman, helps in local arrangements.

Townpeople can help by donating fresh vegetables and fruit to the camp. Have you any surplus vegetables in your garden?

Mr. and Mrs. Edward M. Powell, with Ted, Jack and David, and Lassie, reached Green Pastures by auto from Wayne, Pa., last Saturday evening. Virginia had already arrived a week earlier, and was a member of the Philadelphia delegation at the Girls' Conference.

Mr. Powell returned to business on Monday, but the family plans to remain here through July and August.

The dates of the three groups of children at Virginia Fresh Air Camp are July 5-19; July 23 to August 6; and August 9-23.

Mrs. Charles Vining of Kansas City, a former Hermon student and known to many in town, paid some visits here last Monday while passing through Northfield.

"Wedding Bells"

The Raspberry Festival, with a recital following, that is to be held in the Trinitarian Church on Monday evening, July 16, promises to be an interesting social event. Mrs. Mildred Addison Chairman of the Supper Committee. Prof. Irving J. Lawrence will secure the vocal and instrumental artists for the recital. Local talent will be given a vacation, and we shall have the privilege of listening to friends who are here only during the summer. The short program, "Wedding Bells," is in charge of Miss Daisy Holton.

The affair is a benefit to help defray the expense of the choir gowns.

Seminary News Notes

With the closing of Northfield Seminary for the summer the faculty as well as the students have scattered to the far places. Unfavorable foreign exchange has limited the number going abroad but at least three will make the trans-Atlantic crossing. Miss Wilson is already on her way to England, while the Misses Eva and Victoria Freeman are expecting to sail within a short time.

The following teachers are taking summer courses: Mr. Charles F. Taber, University of Wisconsin; Miss Wynne Caird, Cornell; Miss Florence Ross, Clark University; Miss Mabel M. Cooper, Harvard Summer School; Miss Marian Keller, Westminster Choir School; Miss Eleanor L. Davis, Harvard Summer School; Miss Miriam E. Hubner, New York Wigman School; Miss Elsie Scott, Harvard Summer School; and Miss Margaret L. Menzel, Cornell or Harvard.

Another member of the faculty who will go abroad later in the summer is Miss Harriet Howard who will exchange during the coming school year with an English private school teacher.

## Sixteenth Annual Farm And Home Week

July 24-27, 1934

Farm and Home Week at the Massachusetts State College is set this year for July 24 to 27.

This year there are programs for those interested in fruit, beekeeping, poultry, cash crops, dairying, lawns, seeds, vegetable gardening and forestry.

A log chopping contest, livestock parade, three one-act plays, a quartet, and speakers from the state and national Grange and from the Boston Globe are among the special features of the program.

The complete program will be ready in a few weeks, so we suggest that you write to the Extension Service, Massachusetts State College at Amherst and secure a copy. The women folks will also be interested in Farm and Home Week, for there are some excellent programs for them.

Camp sites are available on the campus, and rooms may be secured at minimum rates in private homes or for even less in the college dormitories if you take your own bedding. Further information on these subjects may be secured from the Extension Service.

We urge you to attend these meetings, for Farm and Home Week is one time when producers can get a great deal of information in a short space of time.

The County Agent

Apple maggot flies have been reported in other sections of the state. There are likely to be more flies than apples this year, so extraordinary precautions will have to be taken to control them. Watch the trees carefully and apply at the first evidence of flies, or not later than July 10th.

Use: Wettable sulphur as recommended by the manufacturer. Arsenate of Lead 3 pounds to 100 gallons water.

This is for apple maggot, codling moth, sooty fungus, scab, Brooks spot.

Those using dust should use 85 parts Sulphur and 15 parts Arsenate of Lead.

A second application should be made about two weeks after the first Arsenate of Lead two pounds to 100 gallons, or a dust of 80 parts Lime, 20 parts of Arsenate of Lead. If the dust is used three applications should be made 10 days apart.

This will be the last spray made of the year, so mark carefully as it is anticipated that apple maggots will be very plentiful this year and it is also expected that Apples will be Apples this fall and will be well worth saving.

North Church Notes

HORSESHOES

The Herald would like to start a Horseshoe Pitching Tournament to determine the individual and team champions in town. Arrangements have been made to use the grounds back of Geo. Kidder's for one ground and a similar spot in East Northfield is being searched for.

A meeting of all men interested will be called at the Herald office for next week. Suitable prizes will be offered by the Herald to the winners.

GARDEN CLUB PRIZE

The Northfield Herald has purchased from Vaughan and Burnett a silver center piece flower holder which will be offered as a prize at the fourth coming Flower Show. Just what event it will be offered for has not as yet been decided. It will be known as the Northfield Herald Trophy and we hope sufficient interest will develop to warrant making it an annual event.

Mr. Scovel received a fracture and severe lacerations. He was attended by Dr. Wright and Mrs. Marion Lilly and removed to his home.

THAT WASHINGTON TRIP

Much comment was heard at the Alumni gathering and much has been heard on the street regarding the failure of the Seniors to get to Washington this year.

It would seem that somewhere in our school system there must be a teacher who is interested enough in the young people of the school to give the planning of this trip the attention it deserves. It is not too early right now to look forward to next June.

**EDITORIAL****THAT BANKING CODE**

Many of our citizens came face to face with the new banking regulations today and decidedly did not like them.

Many of the workmen on the Seminary projects report that when they went to cash their pay checks for the month they were met with a charge of 40c. We believe this to be an outrage. Why any American citizen should be required to work one hour a month to enable him to pay for the privilege of collecting the rest of his wages is beyond our comprehension. This does not mean that we are antagonistic to the entire code for we are not but we do see a weak spot right here and want to point it out.

These men are talking of taking their checks across the state line and cashing them. To do so they will have to make purchases. These purchases represent purchases that Northfield merchants are not go-

ing to get. Most of these men will buy necessities—not luxuries and our merchants will have less money to put into the bank when the week-end rolls around. To a man up a tree it looks as if this particular bank charge is a direct slap at the local merchant and a break for our friends out of state. We think it will be changed. At least it should.

Good things  
taste better in the open

THERE'S a decided difference between a meal eaten in the home and one eaten in the happy informality of the picnic ground. Somehow the open air lends added zest to the good things prepared.

We suggest that on your next outing you try meat loaf, cooked according to the recipe printed at the right.

You will find it extremely simple, especially if you own an electric range. Meat loaf and other dishes may be cooked at any hour of the day without watching—the automatic time and temperature controls take care of that; basting and fussing are eliminated by the fast even heat of the insulated oven, which seals in all the natural juices of the meat.

If you do not have an electric range then get in touch with your local dealer today—learn about this new method of cooking that gives food an added flavor and gets mother in the open with the rest of the family.

**O, PATRIOT!**

Come, say with me: This land we love so well,  
It is the common parent of us all;  
And at her need true patriots respond,  
No matter what the cost, or when the call.  
The noblest motive for our every act  
Is common good for all, not selfish gain;  
Then be not bound by narrow party lines,  
But seek to benefit the whole domain.  
No government is safe unless it holds  
The loyal good-will of the people there.  
True patriots dare be poor, and scorn to gain  
A wealth that strips the land's resources bare.  
Then guard the forest, field, and waterway,  
Nor let the robber schemer glut his purse  
By rank injustice to his fellow men.  
A gain for ALL is blessing, not a curse!

A. L. Webb.

**INTERESTING DAYS**

June 28 is an interesting date historically. Among other events falling on that day, in the opening year of the American revolution, 1776, Gen. Clinton and his British troops attacked the colonials under Col. Moultrie at Sullivan's Island, S. Car., but were repulsed from Ft. Moultrie. Two years later, on the same day, Clinton was forced to retreat to New York from the Battle of Monmouth Court House, N. J. President James Madison died at Montpelier, Va., in 1836, the same day that there was born in DeRuyter, Madison Co., N. Y., Lyman J. Gage, who became secretary of the U. S. Treasury under both President Roosevelt and President McKinley, and three times president of the American Bankers' Assn. The World War was precipitated by the murder of Archduke Ferdinand June 28, 1914, and exactly five years later, 1919, the same day, the treaty of Versailles that ended the war, was signed.

June 29 is St. Peter's and St. Paul's Day. It is the anniversary, also, of the birth in 1810 (some authorities say 1808) at Alessandria, in the Piedmont, of the Italian statesman Urbano Rattazzi, who became Minister of Justice

during the ascendancy of Cavour. For 20 years his eloquence, knowledge, and liberal principles kept him in the limelight of his country's politics.

James S. Bell, who as president of the Royal Milling Co., had a hand in the making of literally millions of loaves of good bread, was born in Philadelphia June 30, 1847.

Prof. Rudolf Hermann Lotze of the staff of Göttingen University nearly 40 years, died in Berlin July 1, 1881. He worked out the relation of psychology and biology, and wrote many scientific works along similar lines.

Another noted German, known both as Ritter von Gluck, and Christopher Willibald Gluck, was born July 2, 1714, near Neumarkt, and became the rival of the Italian Piccini in composing grand operas. His "Iphigenie" and "Orpheus and Eurydice" are his best known works.

William Hamilton Jenks, for many years a surgical missionary to China, was born in Philadelphia July 3, 1871.

Independence Day, in the United States, July 4 is the anniversary of the day in 1846 when Charles Sumner made his first great speech in Boston in favor of peaceful arbitration of international difficulties, a speech which made him famous.

**CHOCOLATE CAKES**

I have a very nice little cake recipe from the radio to give you today. Sift 1 1/2 cups flour with 3/4 teaspoon baking powder, 1/4 teaspoon salt, 1 1/2 teaspoons cream tartar, and 1/2 cup ground chocolate; sift several times. Beat 2 whole eggs and 2 yolks till light lemon color. Add 1 cup sugar (previously sifted) and beat. Add the dry ingredients, then 1 cup milk and 1 teaspoon orange or vanilla flavoring, and 1/4 cup melted butter. Turn into a square baking pan and bake 3-4 hr. in a moderate oven (350 degrees). Turn out to a cooling rack. When cool, cut in squares 1 1/2 inches. Roll in chocolate icing, then add finely chopped almonds, shredded coconut or tiny candies such as are used in decorating cookies and cakes. Serve on a lace paper doilies or fancy plate.

cup milk, and 1 teaspoon sherry of 1-2 teaspoon vanilla, and cook until it will form a soft ball when dropped in cold water.

**SPANISH CREAM**

This is a Toronto contribution: Scald 3 cups milk, with 1 1/2 tablespoons granulated gelatin, add a scant 1/2 cup sugar, and pour slowly over the yolks of 3 eggs slightly beaten. Cook in top of double boiler till it thickens, stirring constantly. Cool and add 1-4 teaspoon salt, 1 teaspoon vanilla, and whites of the eggs beaten stiff. Put into a mold and chill before serving.

**GRAHAM BREAD**

Put 1-3 cup molasses and 1 1/2 teaspoons salt into 2 1/2 cups boiling water and let stand till lukewarm. Then add 1 cake yeast in 1-4 cup water, 3 cups white flour, and 3 cups graham flour. Beat thoroughly together, then set to rise 2 1/2 hrs. Beat again, and pour into greased tins, and raise once more. Bake 3-4 hr. in moderate oven. This came from Mrs. Fish, a friend of my mother.

**HOME PROVERBS**

CHINESE—"An ungrateful son is like a wart on his father's face; to leave it is a blemish, to cut it off is painful."

JAPANESE—"Even the street dog has his lucky days."

IRISH—"What you give would not blind the eye of a midge."

FRENCH—"A flatterer may rich everything, with the goat."

RUSSIAN—"Pray to God, but do not offend the devil either."

ITALIAN—"The ditch is lost unless the thread be knotted."

In the extensive rebuilding and elaboration of the Japanese government buildings and exhibits for the 1904 Century of Progress Exposition at Chicago the added attractiveness of the gardens is to play a prominent part. So much that is new in the gardens, the buildings and the exhibits will be shown that the 1933 visitors will not recognize the complete exhibit as one they saw last year. The above picture shows a small corner of the gardens that are being radically made over for the 1934 Fair.

### Anniversary Of Battle Of Belleau Wood

Tide Of Battle Turned  
Sixteen Years Ago  
By Uncle Sam's Marines

By William Carmel Sparks

Beneath thousands of small  
white crosses, marked with our  
national insignia, in far-off Flan-  
ders Field, lie the mortal remains  
of thousands of Uncle Sam's "Dev-  
il Dogs" who, sixteen years ago  
this month, etched the name  
America on the pages of world  
history.

Where French peasants till the  
soil and young trees spread their  
verdant boughs, once the roar of  
battle sounded. There the marines  
added to their long string of glo-  
rious achievements. To-day the  
battle scene is marked with mon-  
ument and named Bois de la Bri-  
gade de Marine. Aptly is that sen-  
tinel-like shaft engraved.

It was far different sixteen  
years ago!  
In June 1, 1918, the remnants  
of a once superb French Division  
was beating a hasty retreat before  
a German advance which was  
sweeping down from the North.  
Along the famous Paris-to-Metz  
highway came the Boche with Par-  
is in the offing... and victory.

Only at Rheims and west of Sois-  
sons did the battered poilus check  
the victory march. But the stream  
of green-clad regimentalists rose  
into a raging teutonic torrent and  
swept on toward Chateau Thierry,  
the key to the Paris-Metz road.

It was here that the Second Di-  
vision of which the Fifth and  
Sixth Regiments of Marines and  
the Fourth Machine Gun Battalion  
(Marines) were a part, won undy-  
ing fame and glory.

The Americans were hurried in-  
to action. They were moved up to  
bolster the French who were fall-  
ing back rapidly. Passed along  
streams of refugees with all their  
belongings, who were hurrying on  
... they knew not where... but  
moving.

What started out as a steady  
movement on to an objective be-  
came a race as the impregnable  
Hindenburg Line pushed on to-  
ward Chateau Thierry. A race  
which was to try the raw soldiers  
from the farms and offices of  
America.

The Second Division spread out  
on either side of the Paris-Soissons  
Road to await the Germans, who  
could be seen pouring into the val-  
ley from the direction of Belleau  
and Torcy.

Here raged one of the most ter-  
rific fights of the war. The Ger-  
mans came on confidently march-  
ing in columns over the hills and  
down the roads. Nearer and near-  
er they came to the Marines, their  
last barrier to victory.

Then, with a thunderous roar,  
the Yanks let loose a fusillade that  
blasted the German ranks to rib-  
bons. They fell back and reformed.  
Flung themselves once more at  
their stubborn foe, but that foe  
never relented, never gave an inch  
of that ancient Roman road.

But let Floyd Gibbons, famous  
war correspondent and journalist,  
recount his experiences as an eye-  
witness to this bitter struggle.  
Here's his story of the Belleau  
Wood encounter.

"The Boche continued to in-  
crease his pressure at Chateau-  
Thierry. He was trying to make  
a crossing at all costs. They were  
pressing hard at Belleau Wood.

"The Marines had been moved  
in to defend this sector. But in-  
stead of defending they moved in-  
to line and went after the Boche  
who were sweeping ahead... mind  
you... instead of defending they  
attacked.

"The Germans were surprised  
at the crust of the Americans. Our  
boys would take a whack at them,  
then stop for a rest, and back at  
them again. Nothing could stop  
them. The artillery didn't have a  
chance to keep up with them. It  
was impossible. Those boys were  
in a hurry. The artillery opened  
up... German artillery near  
Torcy. It was hell, but they kept  
moving up. Great gaps would open  
up in the lines and more marines  
would close up and move. Defeat?  
They had never heard the word.

The air was hot from the continual  
burst of shells and the whizzing of  
bullets. Men dropped on all sides  
but they kept on.

"On the day I was wounded  
they went over about 5:30 A. M.  
Major Benjamin S. Berry, U. S.  
Marines (now Colonel) and I  
went with the first wave. We went  
across a wheat field lying between  
a clump of woods. The first fire was  
terrific. Major Berry was hit in the  
arm. We laid down. I was hit with  
machine gun bullets, about a hun-  
dred yards away, three times with-  
in twenty minutes. One hit me in  
the eye, the other two hit my arm.  
I never lost consciousness. When  
it became dark I walked back to  
a dressing station after watching  
the marines take the woods. So it  
was all through June."

An important early step in aero-  
nautics was taken June 5, 1783,  
when Joseph Montgolfier made the  
first balloon ascension at Annonay,  
France, with his linen bag filled  
with smoke!

Do not forget Montgolfier to the  
floor until two weeks after it has  
been laid. This allows it to stretch.

With the announcement of price reductions several weeks ago, Chevrolet stepped into the most favorable price position it has enjoyed in a long time!

Reductions amounting to as much as \$50—the most substantial price cuts announced in the low-price field this year—dropped Chevrolet's base price to a new low figure of \$465. Just compare this price—compare any Chevrolet price—with those of other cars. Then compare what you get for what you pay! There'll be no question in your mind which car to buy.

Chevrolet offers patented Knee-Action—and others do not! The same thing applies to Fisher body, cable-controlled brakes, shock-proof steering, and valve-in-head six-cylinder engine. Chevrolet gives you far more features—for finer quality. Yet the price of the Chevrolet Standard is lower than that of any other six or any eight in the world.

## VALUE FAR BEYOND THE PRICE —AND THE PRICE IS LOWER!

EVEN at former prices the Ford V-8 was an outstanding value. In fact, the more high priced cars you looked at... the more Ford V-8 features you saw.

Now the low prices of the Ford V-8 have been reduced even lower. This is particularly important when you realize that Ford V-8 prices have not been increased this year.

And the car has not been changed. It gives you a full 117" wheelbase. A generous 85 horsepower. The only V-8 engine in

a car selling for less than \$2500! Despite its bigness, roominess and power—despite its outstanding performance—the Ford V-8 is the most economical Ford ever built. See it. Drive it. And you'll want to own it.

### LOW FORD V-8 TRUCK PRICES GO LOWER

The new Ford V-8 Truck was America's Greatest Truck Value at the old price. And now prices have been substantially reduced. See these rugged, economical Ford V-8 Trucks. They're built to solve 90% of all hauling problems.

COOL—The Ford V-8 windshield opens. And, in addition, there is cowl ventilation in front. Further, you have had weather comfort in Ford Clear-Vision Ventilation from the side windows.

BEAUTY—The Ford V-8 is one of the most beautiful cars on the road. You can park it beside expensive cars with pride.

### Plymouth To The Front

It is human nature to doubt a story of great achievement if it means completely changing ones opinion about a car and its prestige. Some people still do not realize that the trend is distinctly to Plymouth, the automobile that is made for first place. Human nature can not be changed, but opinions can.

Remember these figures when talking about cars so that you will know that the trend is to Plymouth.

In 1930, 64,301 Plymouths were sold, but in 1933 the number had swelled to 249,667. In 1930, 615, 884 of car C were sold,—in 1933, 474,498. In 1930, 1,056,097 of car F were sold, but in 1933 this number reduced to 311,112.

These figures show that the trend is distinctly to Plymouth. In 1933, 1,056,097 of car F were sold, but in 1933 this number reduced to 311,112.

### Cherry Days Are Here Again! How About Making Some Jelly?

This is Maria, hostess of Maria's Matines, helping Frances Lee Barton, famous Home Economist, to make cherry jelly. "Crush the pulp with a potato masher," Mrs. Barton advises.

CHERRY days are here again! And strawberries are still at their prime! This is indeed the time to lay in your supply for jellies and jams.

Isn't it a great boon to the busy housewife to know that jellies and jams can be made without spending so much time and effort? Use bottled fruit pectin to make up for the pectin deficiency of cherries and strawberries and a successful jelly is assured.

Have you ever tried sliced strawberry jam? Your family will find it a rare treat. And, while on the subject of jellies and jams, be sure to give them plenty of time to set. Some fruits take a week to a month before they reach their final stage. So, don't forget, give them time.

Here are some recipes to start your season with:

**Cherry Jelly**  
(Any kind except wild cherry or chokecherry)

3 cups (1½ lbs.) juice  
¾ cup (2½ lbs.) sugar  
1 bottle fruit pectin

To prepare juice, stem and crush 3 pounds fully ripe cherries. Do not pit. Add ¼ cup water, bring to a boil, cover, and simmer 10 minutes. (For stronger cherry sa-

vor, add ¼ teaspoon almond extract before pouring.) Place fruit in jelly cloth or bag and squeeze out juice.

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard ½ minute. Remove from fire, skim, pour quickly. Paraffin hot jelly at once. Makes about 9 glasses (6 fluid ounces each).

**Sliced Strawberry Jam**

4½ cups (2 lbs.) prepared fruit  
7 cups (3 lbs.) sugar  
¾ bottle fruit pectin

To prepare fruit, cut about 2 quarts fully ripe berries in halves lengthwise; large berries in quarters.

Measure sugar and prepared fruit into large kettle, mix well, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 3 minutes. Remove from fire and stir in bottled fruit pectin. Then stir and skim by tares for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Paraffin and cover hot jam at once. Makes about 10 glasses (6 fluid ounces each).

### Locals

Dr. and Mrs. J. J. Madden and family of Brooklyn, N. Y., are in Rose Cottage Rustic Ridge for the summer.

The C. C. Stearns store which is selling out completely and expecting to close its doors soon is now open evenings for the convenience of folks who cannot shop in the daytime.

David McDermott is at the Baptist Camp in Old Orchard. George Smith and Billy Leduc accompanied him.

Mr. and Mrs. Seefeld Bitter are at a camp meeting in Rhode Island.

Dr. and Mrs. Curtis Lee Lawes Editor of the Watchman and Examiner is at the Northfield Hotel.

Arlene and Edwin Finch are visiting relatives in Springfield.

Mrs. Helen Hatch of Valley Vista has returned from New York.

The Briemasters at Valley Vista have been entertaining the Harry Briemasters of Virginia.

Miss Harriet and Frances Osborne of New Rochelle are at Mr. and Mrs. Giebel's for the Conference. Miss Harriet was for several years a Missionary in Foo Chow, China.

Miss Bernice Webster sails today from Los Angeles to Japan for a summer trip returning to her school in September.

### Garden Club

The Flower Show will not be devoted entirely to flowers, although flowers will have the leading place. Room is being reserved for vegetables and small fruits. Show us what you can do in this line.

Also among other things, we are to have a table given over entirely to our native ferns. We hope to have specimens of each kind with cards bearing brief descriptions of their habits of growth and their main distinguishing features.

I wonder how many realize that there are thirty-two different kinds of ferns in this locality, of which twenty-five are very common. They grow in all kinds of places, in swamps, among rocks, in the deep woods, and in the open. They are of all sizes, from tiny fairy-like things, to specimens as large as shrubs, with fronds five feet and more in length.

Much of the cool beauty of our wild lands is because of them. Their vivid light green holds a bit of the sunlight, even in places where the sun never shines. They soften the rugged harshness of the rocks, and away in airy grace with every passing breeze. We need to know more of them, these last survivors of our world's youth.

I would suggest, that the ferns to be exhibited at the Flower Show, be taken up carefully and potted, using the soil in which they originally grew, and keeping them well watered. This table is for educational purposes only, and no individual prizes will be given.

An interesting exhibit of pressed wild flowers is being collected and shown at the library this month. Mrs. Vorce will be glad to have any unusual specimens that you may care to bring in, and will help to classify and name them.

### HUNT TAVERN GUESTS

The following people registered at the Hunt Tavern over the weekend—

Mrs. Geo. W. Wilkinson, Brooklyn, N. Y.; Mrs. Edward Crossett, Springfield, Mass.; Miss J. Prindle, Pittsfield, Mass.; Dr. William A. Bruette, 258 Riverside Drive, New York City; Miss Marie Bruette, 258 Riverside Drive, New York City; Albert E. Bennett, 316 West 84th St., New York City; Mr. and Mrs. LeRoy Mance, Hewlette, Long Island; Anna Mae, Doris, Charles, Olsen, Brooklyn, N. Y.

### QUIET FOURTH

The Fourth of July in Franklin County was unusually quiet. The usual amount of bell ringing was indulged in and individual fireworks displays were few.

No doubt there are a few burnt fingers in town but no serious burns. Only one bad automobile accident was recorded according to Inspector O'Donnell of Greenfield.

### SECRET WEDDING REVEALED

The secret wedding of Miss Elizabeth Auclair of Northfield and State Trooper Norman Peltier of Quincy, attached to Shelburne Falls Barracks Troop B was revealed after a church ceremony in Millers Falls July 4th.

Miss Auclair and Mr. Peltier were married at the Catholic Church in Millers Falls July 4th by Rev. Fr. Radjick of that church. They were attended by Trooper Joseph Keating and Mrs. Keating. Miss Auclair, daughter of Mrs. Elizabeth Auclair of Northfield was graduated from Northfield High School in the class of 1934. Mr. Peltier has been a member of the State Police for a year entering the service after seven years in the Marine Corps. Most of which time he was in Foreign Service.
